THE GREATEST ADVANCE STEP EVER
MADE IN THE ART.
The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting queer the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hitherto used. Truth Stranger than Fiction.

There are those who disbelieve the story below, but it is true in every par-ticular. We know Nixen Curry, and a more brave, honorable, and candid man, er breathed. The writer has omitted We do our work much better than can any to mention two facts—first, that Curry was under the influence of strong drink when he revealed the strange history of his early life, although he was a very temperate man. The second omission is, that Mose Howard, spoken of, was the betrothed of Curry's supremely Hand your orders into the Transcript Book beautiful daughter Mary .- Butte Coun-

THE OUTLAW.

In the year 18—there lived in Iredell county, North Carolina, a Presbyterian minister by the name of Curry. He was SADDLERY HARDWARE,

attached to one another that, what is more rare in childhood, no rival was ever suffered to come between them. Thus they grew up in a delicious dream of the future, and as their years increased, so apparently did their passion for each other. At lifteen this was so evident that their parents forbade all inter-views between them. Her parents were the very F. F.'s of North Carolina, and

brilliant prospects for her.

The natural consequences followed. The lovers met by stealth, and renewed their pledges to each other. Lucy prom-ised that whatever should occur she would never wed any one else, and Nix-on vowed to stand by her so long as a breath of life remained in his body. FRESH GROUND FLOUR, At length, at the age of 18, when Lucy's relatives were doing their utmost

to force her into thearms of another, she

fled with her true and devoted love.

They were immediately pursued and

overtaken, when the enraged Nixon Curry, brought to bay, turned and shot his rival and one of the others, and renewed his flight. The pursuit was hot, but he succeeded

in cluding them, and took refuge in the Alleghany Mountains, near the sources of the Catawba.

Here really begins the extraordinary career of Nixon Curry. Under the plea of necessity, he took up the profession of robber, and speedily rendered his name famous by the number and character of his exploits. Without attempting to give any of the minor incidents, it should be stated that the young robber never took a life for the sake of plunder, a though he did it again and again

to avoid arrest. The Governor of North Carolina offered \$6,000 for his apprehension, and many parties, tempted by the offer, engaged in the pursuit. They frequently gained sight of the notorious bandit; more than once the crack of his death-dealing rifle was heard from some adjoining rock; but never were they able to discover his retreat or bring him to bay. Suddenly all rumors of his daring conduct ceased, and although the search

was continued, he was seen no more in

North Carolina. It was judged that his quarters were becoming too hot for

safety, and he had, therefore, prudently removed them while the opportunity remained to him. During the first settlement of the fertile delta bordering on the St. Francis, now in the state of Arkansas, an emigrant made his appearance, calling himself John Hill. He rapidly became the most popular man in the settlement. Although of moderate means, he was
